SCHEDULE

Ongoing · Mon,  
Wed, Fri · 7:00  
PM – 8:30 PM  
IST, New  
batches start  
monthly

**Prasant Mishra**

Founder & Instructor, Qurious Academy

# What is C?

A focused month on C — the foundation of systems programming. Learn memory management, pointers, and how computers actually work under the hood.

## IS THIS RIGHT FOR YOU?

### Who Should Enroll

#### ✓ THIS IS FOR YOU IF...

- ✓ You're someone with foundational knowledge ready to go further in C Programming
- ✓ You want to learn by doing — with projects, exercises, and live instruction rather than passive video-watching
- ✓ You value efficiency: you'd rather spend focused hours on the right material than months on self-directed study
- ✓ You want expert feedback and a structured environment to stay accountable

#### ✗ THIS IS NOT FOR YOU IF...

- ✗ You don't yet meet the prerequisites: Basic programming logic (any language)
- ✗ You prefer entirely self-paced learning with no live component — this course includes scheduled live sessions
- ✗ You already have advanced expertise in this area and are looking for highly specialised material

**Prerequisites:** Basic programming logic (any language). Curiosity about how computers work.

# 4 Sessions — 4 weeks

**WEEK 1 – WEEK 2****C Foundations & More**

- Compilation model & toolchain (gcc, make)
- Data types, variables, operators
- Control flow
- Functions & the call stack
- Pointers — address of, dereference
- Arrays vs pointers
- Dynamic memory — malloc, free, realloc
- Memory leaks & valgrind

**WEEK 3 – WEEK 4****Structs & Files & More**

- Structs & typedef
- Linked lists in C
- File I/O — fopen, fread, fwrite
- Command-line arguments
- Preprocessor & macros
- Bitwise operations
- Writing a simple shell
- Capstone: build a mini memory allocator

#### LEARNING OUTCOMES

## What You'll Walk Away With

**01** Understand pointers and manual memory management

**02** Write systems-level C programs

**03** Debug memory errors

**04** Build a foundation for OS and embedded programming

#### WHAT'S INCLUDED

## Everything You Get

✓ 12 live sessions + all recordings

✓ All project source code

✓ Learner's Certificate

# About Prasant Mishra

## Prasant Mishra

Founder & Instructor — Qurious Academy

GenAI Solutions Architect

15+ Yrs Teaching

2500+ Students

60+ Projects Delivered

Prasant brings over 14 years of hands-on experience across finance, technology, and education to C. He's held roles spanning equity research, investment banking, and GenAI consulting — and designed this course to give you the frameworks he uses in practice, not a textbook-only view.

His teaching philosophy is to start with the question every practitioner actually asks — not "what is this concept?" but "when do I use this, and why does it work?" Every session in this course is structured around that practitioner's perspective.

# QuriousAcademy

Focused, live learning for curious minds. No fluff — just the concepts that matter.
