ABOUT THIS COURSE

What is Python Weekend Intensive?

An immersive two-day cohort that takes you from absolute basics to building three real Python projects. Small group, live instruction, immediate feedback after every block.

IS THIS RIGHT FOR YOU?

Who Should Enroll

✓ THIS IS FOR YOU IF...

- ✓ You're starting fresh and want a structured, clear path in Python Programming
- ✓ You want to learn by doing — with projects, exercises, and live instruction rather than passive video-watching
- ✓ You value efficiency: you'd rather spend focused hours on the right material than months on self-directed study
- ✓ You want expert feedback and a structured environment to stay accountable

✗ THIS IS NOT FOR YOU IF...

- ✗ You don't yet meet the prerequisites: No programming experience needed
- ✗ You prefer entirely self-paced learning with no live component — this course includes scheduled live sessions
- ✗ You already have advanced expertise in this area and are looking for highly specialised material

Prerequisites: No programming experience needed

About Prasant Mishra

Prasant Mishra

Founder & Instructor — Qurious Academy

GenAI Solutions Architect

15+ Yrs Teaching

2500+ Students

60+ Projects Delivered

Prasant has taught Python to over 2,500 students — from fresh graduates learning their first programming language to senior professionals automating workflows they once thought required a dedicated developer. Python Weekend Intensive reflects what he's found to be the fastest path from zero to genuine productivity.

His teaching philosophy is rooted in the belief that syntax is the easy part — the hard part is building a programmer's intuition for breaking problems down. Every session is designed to give you both the language and the mental model.

QuriousAcademy

Focused, live learning for curious minds. No fluff — just the concepts that matter.
