Classical Mechanics Weekend

Newton to energy conservation — one focused weekend

 2 days · 12 hours

 Beginner

 Live

 Prasant Mishra

ABOUT THIS COURSE

A rigorous but accessible weekend covering the core of classical mechanics. Physical intuition first — equations follow naturally. By Day 2 you'll be solving problems you never thought you could.

Prerequisites: Basic algebra. 11th grade physics helpful but not required.

WHAT YOU'LL LEARN

- 1 Solve mechanics problems from first principles
- 2 Build genuine physical intuition
- 3 Prepared for university physics or JEE/NEET mechanics

CURRICULUM · 2 SESSIONS

SESSION DAY 1

Motion & Forces

Kinematics — displacement, velocity, acceleration

Newton's three laws in depth

Friction, normal force & tension

Problem-solving method: FBDs & systematic approach

SESSION DAY 2

Energy & Momentum

Work, power & kinetic energy

Conservation of mechanical energy

Momentum & impulse

Collisions — elastic & inelastic

Rotational motion basics

WHAT'S INCLUDED

- ✓ Both day recordings (lifetime access)
- ✓ Problem sets with full solutions
- ✓ Live 2-hour doubt clearing session
- ✓ Learner's Certificate

UPCOMING BATCHES

 20 Jun 2026–21 Jun 2026 · 9:00 AM – 3:00 PM IST

 28 Jun 2026–29 Jun 2026 · 9:00 AM – 3:00 PM IST

learner

₹2,999

Live · 2 days · 12 hours · Recorded version available at ₹1,499
