AI Demystified

3 hours

What AI actually is — and how it actually works

PRICE	DURATION	LEVEL	FORMAT	SCHEDULE
₹999	3 hours	Beginner	Live	4 Jul 2026 · 2:00 PM IST, 1 Aug 2026 · 2:00 PM IST

Prasant Mishra

Founder & Instructor, Qurious Academy

ABOUT THIS COURSE

What is AI Demystified?

Strip away the hype. Understand how machine learning, neural networks, and LLMs actually work — without needing a PhD. Built around visual intuition and live demos throughout.

IS THIS RIGHT FOR YOU?

Who Should Enroll

✓ THIS IS FOR YOU IF...

- ✓ You want to build real AI-powered products and need a structured path from theory to shipping
- ✓ You follow the AI space closely but struggle to connect what you read to what you can actually build
- ✓ You're curious about AI and want to understand how it works, not just how to use it
- ✓ You want to work in AI or add AI capabilities to your existing projects

✗ THIS IS NOT FOR YOU IF...

- ✗ You have no programming experience — some Python or JavaScript basics are required to get full value from the hands-on sessions
- ✗ You're looking for academic AI research — this course focuses on practical application and building
- ✗ You already have deep expertise in ML engineering — this is designed for practitioners moving into AI, not ML PhDs

Prerequisites: Curiosity only. No maths or coding required.

3 Sessions — 3 hours

HOURL 1 – HOURL 2

What Machines Actually Learn & More

- What ML really is (vs. traditional programming)
- Training, features & labels explained visually
- Linear models & decision boundaries
- Why deep learning suddenly worked
- How a neural network learns — forward & backward pass
- Backpropagation explained intuitively (no calculus required)
- What a transformer actually does
- How GPT-4 and Claude work under the hood

HOURL 3

AI in Practice

- Live: building with AI APIs (OpenAI / Anthropic)
- Prompt engineering principles that actually work
- Where AI fails — hallucinations, bias, limits
- Roadmap: how to go deeper into AI

LEARNING OUTCOMES

What You'll Walk Away With

01 Explain how LLMs work to anyone

02 Understand the real limits of current AI

03 Use AI APIs to build something real

04 Know the right learning path to go deeper

WHAT'S INCLUDED

Everything You Get

✓ Full session recording (lifetime access)

✓ Live doubt clearing session (1 hr)

✓ Curated resource list

✓ API demo code

✓ Learner's Certificate

About Prasant Mishra

Prasant Mishra

Founder & Instructor — Qurious Academy

GenAI Solutions Architect

15+ Yrs Teaching

2500+ Students

60+ Projects Delivered

Prasant has spent years working at the intersection of AI research and real-world deployment — building LLM-powered products, fine-tuning models, and advising companies on AI strategy. AI Demystified reflects what he wishes he had when he was navigating this space: a structured, practical path through a landscape full of noise.

He believes the biggest gap in AI education is the leap from "I understand the concepts" to "I can ship something real." This course is designed to close exactly that gap — every session ties theory directly to something you can build and use.

QuriousAcademy

Focused, live learning for curious minds. No fluff — just the concepts that matter.
