ABOUT THIS COURSE

What is Interview Preparation?

Personalised interview preparation built around your target role, tech stack and timeline. Covers DSA, system design, and behavioural rounds — calibrated to the specific company and level you're targeting.

IS THIS RIGHT FOR YOU?

Who Should Enroll

✓ THIS IS FOR YOU IF...

- ✓ You're an experienced professional wanting to deepen expertise in Interview Preparation
- ✓ You want to learn by doing — with projects, exercises, and live instruction rather than passive video-watching
- ✓ You value efficiency: you'd rather spend focused hours on the right material than months on self-directed study
- ✓ You want expert feedback and a structured environment to stay accountable

✗ THIS IS NOT FOR YOU IF...

- ✗ You don't yet meet the prerequisites: Basic coding skills
- ✗ You prefer entirely self-paced learning with no live component — this course includes scheduled live sessions
- ✗ You already have advanced expertise in this area and are looking for highly specialised material

Prerequisites: Basic coding skills. Works best if you have a specific company or role in mind.

Prasant has been on both sides of the hiring table — conducting interviews at tech companies and coaching candidates through the process. Interview Preparation is built from direct observation of what separates candidates who clear interviews consistently from those who don't.

His coaching focuses as much on how you communicate and structure your thinking as on the correctness of your answers — because interviewers are evaluating a potential colleague, not just a problem-solver. This course prepares you for the full picture.
