Prasant Mishra

Founder & Instructor, Qurious Academy

What is Software Engineer?

A comprehensive program that takes you from zero to job-ready Software Engineer. Covers programming, problem-solving, web fundamentals, Docker, cloud basics, and three real projects — everything a hiring manager expects.

IS THIS RIGHT FOR YOU?

Who Should Enroll

✓ THIS IS FOR YOU IF...

- ✓ You're starting fresh and want a structured, clear path in Software Engineering
- ✓ You want to learn by doing — with projects, exercises, and live instruction rather than passive video-watching
- ✓ You value efficiency: you'd rather spend focused hours on the right material than months on self-directed study
- ✓ You want expert feedback and a structured environment to stay accountable

✗ THIS IS NOT FOR YOU IF...

- ✗ You don't yet meet the prerequisites: None — absolute beginners welcome
- ✗ You prefer entirely self-paced learning with no live component — this course includes scheduled live sessions
- ✗ You already have advanced expertise in this area and are looking for highly specialised material

Prerequisites: None — absolute beginners welcome

5 Sessions — 6–8 months

MODULE 1 —
MONTH 1 —
MODULE 2 —
MONTH 2

Python & Programming Foundations & More

- Python core — variables, functions, OOP
- Data structures — lists, dicts, sets
- Exception handling & testing with pytest
- Git & collaborative workflows
- HTML, CSS & JavaScript basics
- REST API fundamentals (HTTP, JSON)
- Building a FastAPI backend
- Project 1: full-stack mini app

MODULE 3 —
MONTH 3 —
MODULE 4 —
MONTH 4

Databases & Engineering Practices & More

- SQL — queries, joins, indexing
- Database design & normalisation
- Linux command line essentials
- Code quality — reviews, linting, CI
- Docker — containers, images, compose
- AWS basics — EC2, S3, Lambda
- Deploying apps end-to-end
- Project 2: containerised app on AWS

MODULE 5 —
MONTHS 5–6

DSA, Capstone & Interview Prep

- Core DSA patterns for interviews
- Project 3: capstone with full deployment
- Portfolio & GitHub profile
- Mock interviews & resume review

LEARNING OUTCOMES

What You'll Walk Away With

01 Write clean, tested Python code professionally

02 Build and deploy REST APIs

03 Use Docker and AWS for deployment

04 Pass technical interviews at product companies

05 Have 3 real projects in your portfolio

WHAT'S INCLUDED

Everything You Get

✓ Weekly live sessions + all recordings

✓ 3 real capstone projects

✓ Code review every 2 weeks

✓ Weekly doubt sessions

✓ Mock interview sessions

✓ Resume & portfolio review

✓ Alumni network access

✓ Completion Certificate

✓ Interview preparation sessions

About Prasant Mishra

Prasant Mishra

Founder & Instructor — Qurious Academy

GenAI Solutions Architect

15+ Yrs Teaching

2500+ Students

60+ Projects Delivered

Prasant brings over 14 years of hands-on experience across finance, technology, and education to Software Engineer. He's held roles spanning equity research, investment banking, and GenAI consulting — and designed this course to give you the frameworks he uses in practice, not a textbook-only view.

His teaching philosophy is to start with the question every practitioner actually asks — not "what is this concept?" but "when do I use this, and why does it work?" Every session in this course is structured around that practitioner's perspective.

QuriousAcademy

Focused, live learning for curious minds. No fluff — just the concepts that matter.
